## Current Design - Compare Additions

Added:

Active Compare button - Since the primary action of the page is not compare, it should be grey.

\*The checkboxes in this mockup are not high-fidelity

## New Design - Compare Content Views Page

Active Compare button - Since the primary action of the page is to compare, it should be blue. While changing content views and versions, the button should be inactive until the selections are made.

PatternFly Data Table leveraged for compare content.

The columns default is alphabetical

Small mockup shows values for dropdown.

## PatternFly Alignment

Added:

PatternFly Table View:

- Search now contained within table borders
- Compare located in Table View Action area
- Multiple Row Actions condensed into kabab with dropdown.

\*We may need an inactive state for compare
